

## **SERVICE STATEMENT**

Please note that our last scheduled day of service for the Western Lady Ferry is Thursday 1<sup>st</sup> October.

The decision to cease services from 2<sup>nd</sup> October onwards is due to the current social distancing legislation. A significant proportion of our ferry seats are outside and with the weather turning autumnal most passengers will obviously seek out interior seating. This in turn results in much more limited capacity. We do hope you understand and we thank you for all your support throughout this most extraordinary season and we very much look forward to welcoming you all again when we restart our services next spring.

We wish you all well - look after each other and do stay safe....
